In an emergency please call 911. In the past we have received calls for emergencies on the fire station business line. Doing this is dangerous and can delay our response to your call for help. When you call 911 your address is automatically provided to the dispatcher. If the phone line was to go dead or you were to become unconscious we would be unable to locate the origin of the call. Often times were not in the station due to emergency responses, training, and fire department business. Calling the station direct slows down or response and we prefer you to cal 911.
