Keeping the sewer pipes clean

Avoid FOG: Fats, Oils & Grease don't go down the drain
Pour cooled fats, oils and grease into a container and place it in the trash. Never pour oil, bacon grease, shortening, butter, salad dressing, sauces, cream, or mayo into the drain or toilet.

Keep the Sewers Fat Free

Wipe down dishes and cookware to remove grease rather than running water over them, this saves water and helps keep FOG out of the sewer. Don't use cloth towels because the grease will end up in the sewer when you wash them.

Use a Strainer in the Sink

Place a strainer in the sink to catch small scraps of food, food scraps big and small can clog wastewater lines. Bring food scraps to the Community Food Waste Drop Off at the Community Center.

Save the Pipes and Don't Flush Wipes

Don't flush wipes down the toilet, even "flushable" wipes cause problems in the wastewater pipes. They don't break down like toilet paper and can contribute to clogs.

COMMUNITY FOOD WASTE DROP OFF PROGRAM

The Community Food Waste Drop off program is off to a great start! Your voluntary participation helps the District meet State-mandated diversion requirements without adding a costly third barrel to your service. In the first month of the program residents have recycled over 5,000 pounds of food waste! Keep up the great work. **Thank you** for helping with this program. Please call 760-951-0006 x224 if you have any questions about the program. www.helendalecsd.org for more info.
